

Web Hosting (share-hosting)

eName.ro, a site managed by Webdev SRL, provides professional web hosting services for websites and dynamic web applications on powerful Linux servers in datacenters from USA and România.

Starting August, 2008 we bring you a new offer for web hosting. The new plans include more storage space for websites and emails, flexibility in choosing the location for web hosting (Romania or USA) and last but not least, free install for most popular open source application available today under open-source license: WordPress, Joomla and the newest one, Magento Ecommerce.

The share-hosting offer contain 5 plans, depending on allocated space and monthly bandwidth:

	Mini	Basic	Pro	Extra	Max
<i>Storage space</i>	100 MB	250 MB	500 MB	1 GB	2 GB
<i>Monthly traffic</i>	5 GB	15 GB	30 GB	60 GB	100 GB
<i>Monthly costs</i>	EUR 3*	EUR 6	EUR 12	EUR 18	EUR 24
<i>6 months payment:</i>	EUR 16	EUR 32	EUR 64	EUR 96	EUR 128
<i>Yearly payment:**</i>	EUR 30	EUR 60	EUR 120	EUR 180	EUR 240
<i>Domains hosted:</i>	1	2	3	5	10

There is no start-up fee. All prices are in EUR and do not include VAT (19% or 0% for VAT-registered companies). Payment is made in lei (RON) for romanian companies or in EUR for the others.

* Mini plan can be payed for 3 months minimum.

** On yearly payment price you get 2 free months compared with montly payment.

Hosting is made on state-of-art dedicated servers with Dual Intel Xeon QuadCore CPU, at least 2.3 GHz, with SAS hard disks in hardware RAID 1 arrays and with 8 GB RAM. Internet connections are provided by Voxel, New York and GTS Telecom for servers collocated in Bucharest.

Both datacenters have multiple facilities including secure access, consnt air temperature, distinct connections for electrical and network grid. Uptime guaranted is 99.5% for web hosting services. Backup is made nightly on distinct server.

All hosting plans include:

- ✓ email accounts
- ✓ subdomains

All hosting plans include cPanel® 11, the well-known web interface for site and email management. cPanel is widely used by most web hosting companies in the world.

From cPanel you can create and manage email accounts, FTP accounts, database access, you can protect directories with password, install web applications in few minutes or see statistics about website visitors and bandwidth usage.

When you choose webhosting location, you have to see what is the website target because server performance and technical options are similar for both locations. If your website is made for romanian visitors, is recommended that the hosting to be made in Romania, near the visitors.
